

RECOMMENDED USE: Take 2 capsules on workout days. During intense dieting, take 1 capsule on non-workout days before bedtime. Consume **CortSTAT** with at least 6-8 ounces of water.

STORAGE INSTRUCTIONS: Protect from heat and freezing. Keep away from local space heat sources such as space heaters and radiators. Do not expose to direct sunlight or leave in vehicle exposed to sunlight. Do not allow exposure to high humidity (above 65%). Keep container tightly closed when not in use.

DESCRIPTION: Elevated cortisol levels in the athlete are known to break down muscle tissue via inhibiting muscle protein synthesis. **CortSTAT** by SAN is a bona fide new formula that supports the maintenance of muscle tissue post-workout.*

Very recent research has shown that lowered levels of cortisol enable greater amino acid utilization for enhanced nitrogen retention, glycogen synthesis and protein synthesis.* As a dietary supplement, use **CortSTAT** as a key substrate to thwart exercise induced stress muscle tissue cannibalization.*

SAN products are manufactured under GMP (Good Manufacturing Practices) standards with stringent quality control guidelines. Additionally, each lot produced by SAN is independently tested for purity and potency by HPLC analysis to ensure only the highest quality ingredients in our innovative formulas.*

Manufactured in a facility that also processes egg, shellfish, fish, soy, peanuts, tree nuts and milk ingredients.
