

RECOMMENDED USE: As a dietary supplement, take 1 capsule with your gluten and/or grains-containing meals.

WARNINGS: If you have celiac disease, use only under the supervision of a medical professional. Not intended for persons under the age of 18 years. Do not eat desiccant bag.

STORAGE INSTRUCTIONS: Protect from heat, freezing or humidity (above 65%). Keep container tightly closed when not in use. Keep out of the reach of children.

DESCRIPTION: **GLUTEN SAFE™** contains a specifically formulated digestion matrix that contains BioCore DPP-IV® which provides supplemental dipeptidyl peptidase IV (DPP-IV) activity along with other fungal proteases that may support gluten digestion.* Many individuals are concerned about gluten and do what they can to avoid its consumption and its associated discomfort.

GLUTEN SAFE™ with BioCore DPP-IV® supports digestion of small amounts of gluten that might be inadvertently consumed to help maintain your peace of mind. SAN's **GLUTEN SAFE™** also contains the carbohydrate digestion enzymes "amylase" and "glucoamylase". Taken as directed, **GLUTEN SAFE™** may assist with the breakdown of many other carbohydrates (besides gluten and wheat). The proteases in SAN's **GLUTEN SAFE™** have been formulated to be stable in the acidic environment of the stomach.*

BioCore DPP-IV® is a registered trademark of National Enzyme Company®.

Each bottle bearing a SAN label has been HPLC tested and certified for purity and potency under stringent quality control guidelines (cGMP) that are set forth with the United States Food and Drug Administration.*

* These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
