

RECOMMENDED USE: As a dietary supplement, take 1 capsule with meals 2-3 times daily.

DESCRIPTION: SAN's stabilized **NA-R-ALA™** contains the world's first form of **NA-R-ALA™**, the sodium salt of R-Lipoic Acid (RLA). Unlike ordinary RLA, SAN's **NA-R-ALA™** is the only stabilized form of RLA that doesn't polymerize into a sticky and useless substance at high temperatures. **NA-R-ALA™** is fully water soluble and hence completely absorbed by the intestinal tract.

NOTE: SAN's **NA-R-ALA™** is stabilized with Na (sodium). One serving contains less than 1% of the daily value for sodium, an insignificant contribution to dietary sources and therefore not listed on the label. The sodium content in SAN's **NA-R-ALA™** will not affect blood pressure levels.

STORAGE INSTRUCTIONS: Protect from heat and freezing. Keep away from local space heat sources such as space heaters and radiators. Do not expose to direct sunlight or leave in vehicle exposed to sunlight. Do not allow exposure to high humidity (above 65%). Keep container tightly closed when not in use.

SAN products are manufactured under GMP (Good Manufacturing Practices) standards with stringent quality control guidelines. Additionally, each lot produced by SAN is independently tested for purity and potency by HPLC analysis to ensure only the highest quality ingredients in our innovative formulas.*
