

A joint is the place where two bones are connected. The bones are covered with a layer of slippery cartilage, which enables them to glide against each other seamlessly. Unfortunately, as we age, the cartilage begins to wear out.

Cartiquil® features 3 ingredients shown to be effective for promoting joint comfort in human clinical trials: Meriva® turmeric, ApresFLEX® boswellia, and standardized proprietary celery seed extract.* This unique formula works in as little as 7 days!

All the botanicals in Cartiquil have been used for centuries to promote joint comfort.* New technological advances have allowed for significant improvements in the stability, absorption, and efficacy of these three classic herbs, all featured in Cartiquil.

Meriva® is a trademark of Indena S.p.A. ApresFLEX® is a registered trademark of Laila Nutraceuticals exclusively licensed to PL Thomas - Laila Nutra LLC. International patents pending.

*THESE STATEMENTS HAVE NOT BEEN EVALUATED BY THE FOOD & DRUG ADMINISTRATION. THIS PRODUCT IS NOT INTENDED TO DIAGNOSE, TREAT, CURE, OR PREVENT ANY DISEASE.
