

CoQ10 is one of the most studied cardio-protective and energy-enhancing nutrients.* However, it is poorly absorbed.

Some technologies have been developed to improve its bioavailability. But while increasing absorption in some people, they have little or no effect on others.

CoQ10-SR® is different: it contains MicroActive® CoQ10, which delivers sustained release over 24 hours, and is the only form of CoQ10 clinically proven to have universal enhanced absorption.

CoQ10-SR provides several key benefits:

- Doubles CoQ10 levels from baseline in 3 weeks
- Delivers sustained release over 24 hours
- 3x better absorbed than regular CoQ10†
- 2x better absorbed than solubilized higher bioavailability CoQ10 softgels.
