

Directions: As a dietary supplement, adults take one (1) tablet daily between meals, or as directed by a health care professional. To support fatty acid metabolism while dieting, take (2) tablets, twice daily.

L-carnitine plays a key role in cellular energy production. It is essential for oxidation of fatty acids in the mitochondria. Most L-carnitine in the body is found in cardiac and skeletal muscle. Vitamin B6 is a cofactor in the metabolism of amino acids.[†]

Store in a cool dry place. Do not refrigerate. Please recycle.

**Do not use if safety seal under cap is broken or missing.
Keep out of reach of children.**
