

Agmatine Sulfate helps increase nitric oxide (NO) production & drives the NO & other nutrients into muscles which can increase muscle pump, vascularity & provide greater endurance. Agmatine Sulfate is known as the next generation of Arginine. Studies suggest Agmatine Sulfate doesn't just mimic the benefits of Arginine, it frequently surpasses them. The additional affects include an increase in blood flow, improved dilation of blood vessels & an increase in anti-oxidant delivery. Studies have also shown Agmatine Sulfate to have pain & stress-fighting effects & can aid in post-workout recovery & muscle repair.*

OLYMPIAN LABS, INC. products are made with the highest quality ingredients and manufactured according to current Good Manufacturing Practices (cGMP).

CAUTION: If you are pregnant or nursing, have a medical condition, or are taking medication, consult your healthcare professional before using this or any other nutritional supplement. Discontinue use if allergic reaction occurs.
