SERVINGS

DIRECTIONS: PLATINUM HYDROBUILDER™ is INSTANTIZED, so it always mixes up completely and easily. Simply add 1 scoop of PLATINUM HYDROBUILDER™ to a blender, shaker cup or glass filled with 6 ounces of cold water, milk, or your favorite beverage and blend, shake, or stir for 20-30 seconds or until powder is dissolved. **TIP:** Adjust the intensity of your PLATINUM HYDROBUILDER™ shake by varying the amount of liquid you use to prepare it. For a slightly thicker consistency with bolder flavor, mix each scoop with 4 ounces of liquid. For a milder tasting less sweet shake, use 8 ounces of liquid per scoop.

SUGGESTED USE: For post-workout recovery, consume one serving of PLATINUM HYDROBUILDER™ within an hour of completing your training. On non-training days, PLATINUM HYDROBUILDER™ may be taken in the morning or between meals. **TIP:** Use PLATINUM HYDROBUILDER™ after workouts and GOLD STANDARD 100% CASEIN™ at night for around-the-clock amino acid coverage.
