Dietary Supplement

60 Rapid Response Tablets™

Main Ingredient breakdown:

Long Jack: (Eurycoma longifolia) is a tall, slender evergreen shrub-tree commonly found in Southeast Asia. Malaysian men claim that tea made from this plant improves their sexual abilities and virility. Studies have shown it's ability to boost testosterone.

Maca Root: (Lepidium meyenii) is a plant native to Peru, that has been used for centuries for its sexual enhancement qualities. Also traditionally used for energy, athletic performance, and fertility.

Fenugreek: Traditional uses include boosting performance, balancing hormones, and boosting testosterone.

Tribulus terrestris: Studies have shown this ingredient to be an effective testosterone booster, thereby making it effective for sexual and athletic performance.

These are just a few of the effective active components of this maximum strength formula. The potency in Bomba V is second to none and may be too strong for some individuals. We recommend trying one pill, for those who know they have sensitivity to herbal extracts, as some may see more effect than others.
