NUTRILITE® Heart Health CoQ10: While the highest concentrations of Coenzyme Q10 are found in the heart, liver, and kidneys, every human cell needs this fat-soluble nutrient to help convert food into energy. As we age, our bodies tend to produce less CoQ10. NUTRILITE Heart Health CoQ10 contains CoQ10, camosic acid from rosemary extract, and vitamin E - three free-radical neutralizers - in rice bran oil, plus the phytonutrient benefits of Citrus Bioflavonoid Extract. Taken as directed, it can increase your blood levels of CoQ10 to help support a healthy heart. ¹⁰⁰
