## MONEY-BACK GUARANTEE

### Occasional Headaches Have Met Their Match!†

It is estimated that up to 80% of Americans deal with occasional headaches due to stress or fatigue. **Curamin® Headache Relief™ + Caffeine** can make the difference between wishing for relief and finding it. It combines targeted ingredients especially chosen to relieve occasional headaches due to stress or fatigue, enhanced by caffeine.\*

Caffeine has been clinically studied for its ability to reduce headache pain and improve mood.† It affects the central nervous system and targets receptors in the brain that play an important role in pain sensation.\*\* In combination with the other nutrients in this formula, it creates even more powerful benefits.

### Caffeine Boosts Pain Relief to the Next Level!†

- **Caffeine** has been clinically proven to relieve occasional headaches due to stress or fatigue.\* The caffeine in one serving of this formula is about the same amount you get in one and half cups of coffee.
- **Curcumin** with turmerones (turmeric essential oil), is clinically studied and provides relief from pain caused by occasional headaches.\*\*
- **Magnesium** (glycinate) supports healthy neurotransmitter activity in the brain, and clinical studies have shown it relieves occasional headaches.† The amino acid chelate included in this supplement is better absorbed for greater benefits.\*
- **Boswellia** is clinically studied and uniquely standardized to provide up to 10 times higher levels of AKBA than unstandardized boswellia.
- **DLPA** supports the effects of endorphins—the “feel good” chemicals in your body.\*
- **Vitamin B6 as Pyridoxal-5-Phosphate (P-5-P)** is the bioactive form of this nutrient and is an important factor in serotonin production and relaxation.\*
