You Need Iodine. Iodine Co-Factors™ Helps Make It Work.

Every cell in your body needs iodine, but some people need additional nutrients for it to work at its best. **Iodine Co-Factors™** provides ingredients recognized as important partners to this crucial mineral:

- **Selenium** acts synergistically with iodine and plays a role in iodine's availability to cells. Additionally, selenium protects the thyroid gland from oxidative stress, which may occur during the conversion of iodine to iodine.*
- **Vitamin C** supports healthy tyrosinase activity, a required enzyme for energy metabolism and thyroid hormone production.*
- **Thiamin (B1)** helps activate the thyroid hormone and thyroglobulin protein production.*
- **Riboflavin** assists iodine in the synthesis of the thyroid hormone, thyroxine (T4).^{††}
- **Magnesium** improves the absorption and utilization of iodine.*
- **Manganese** is essential for the conversion of glucose to cellular energy and aids in iodine's support of balanced metabolism.*

If you don't feel you are getting all the benefits from iodine that you desire, **Iodine Co-Factors™** may be the missing link!

Make Iodine More Effective!

Iodine Co-Factors™ is designed to be taken with the **Terry Naturally®** iodine-containing products **Thyroid Care™** or **Tri-Iodine™**. Iodine Co-Factors™ increases iodine's effectiveness for:

- **Healthy Metabolism and Weight Management†**
- **Daily Energy Levels**
- **Breast, Prostate, & Colon Health**
- **Thyroid Hormone Levels††**
- **Healthy Detoxification***
