The Only Pure Propolis No Beeswax or Resins, Just Concentrated Power

GH2002™ Propolis is gathered from specially tended hives nestled in rural European forests, where bees have consistent access to the plants they need to produce this amazing ingredient. It is then purified to remove the beeswax, inert resins, and other impurities that could dilute its many immune benefits.*

Removing indigestible and non-absorbable beeswax means Propolis Extract delivers more concentrated, hypoallergenic power for children and adults alike. It is the only pure propolis on the market today. It's clinically validated, safe, and effective for maximum immune support.*

Superior Clinically Studied GH2002—100% Pure Propolis Power!
