UNFLAVORED,
100% PURE

10 GRAMS OF
PROTEIN PER SERVING

HANDCRAFTED COLLAGEN PEPTIDES FROM SOUTH AMERICAN BOVINE HIDES

NATURAL FORCE COLLAGEN PEPTIDES™ provide protein from the highest-quality, grass-fed and pasture-raised source of collagen on the market. Our producers look advantage at whole-animal diets rich in collagen, which is now a missing link in our modern diets today. A lack of collagen, combined with the rigorous training you put your body through can take a toll on your musculoskeletal system. Our Collagen Peptides are short chain amino acids, clinically proven to have a high bioavailability, improve joint pain, and improve joint function¹. This makes them an optimal choice for rebuilding and strengthening your muscles, joints, ligaments, tendons, and bones. Not just that—it's also great for your skin and has tremendous anti-aging properties. This is a must-have secret weapon in your training arsenal that can be added to coffee, tea, or pretty much any beverage that you want for an added protein boost.²

¹ See more details on the clinical study at naturalforce.com/collagenstudy

HOW TO TAKE:

Mix one scoop in your favorite hot or cold beverage. Can be added to any Natural Force® product for an added protein boost.
