Building strong bones and teeth require the effort of more than just calcium. Vitamin D₃, a fat-soluble nutrient sourced from the sun and from dietary sources like fish oil or lanolin, helps facilitate calcium and phosphorus absorption in the body. **Bluebonnet's Liquid Vitamin D₃ Drops 400 IU** specifically sourced from lanolin helps support bone mineralization, a biological process where minerals build up in the bones, causing them to harden and remain strong. ♦

Bluebonnet
Liquid Vitamin D₃ Drops 400 IU

A Taste of the Sun™

**Natural Citrus Flavor
Dietary Supplement**

1 FL OZ (30 mL)

Bluebonnet's Liquid Vitamin D₃ Drops 400 IU contain natural vitamin D₃ (cholecalciferol) from lanolin. Each drop of this sunshine vitamin is flavored using a hint of orange and lemon essential oils. Available in liquid drops for maximum assimilation and absorption.
