

C.G.P. is ideal for any consumer who demands superior quality, uncompromising results, and is looking to increase lean muscle mass, strength, endurance, and maximize physical enhancement...guaranteed!*

Dedicated to manufacturing high quality nutritional supplements, backed by scientific research and formulated by a medical doctor, Metabolic Nutrition was the first to introduce Creatine-Glyceral-Phosphate to the marketplace. Acclaimed by physicians, athletes and consumers alike, **C.G.P.** has the distinction of delivering pure "Muscle Torque Energy" in a 100% stable and absorbable phosphate bonded creatine supplement. Unlike creatine monohydrate which mostly converts into "Creatinine" (a toxic and unusable form of creatine) once mixed in liquid, **C.G.P.'s** chemical structure is strong enough to be mixed in water or other beverages without any degradation which affects other creatine products. Engineered with a glycerol compound, **C.G.P.** is able to accelerate absorption in the GI Tract via a specialized pathway, thus eliminating all negative side effects such as cramps, bloating and nausea associated with most creatine products. **C.G.P.'s** superior phosphate bonded chemical structure remains completely intact and is directly assimilated into your bloodstream. Due to **C.G.P.'s** high absorption rate, a "loading phase" or "high carbohydrate" beverage are not needed, allowing **C.G.P.** to be used by individuals on low carbohydrate diets. **C.G.P.** serves as its own high energy phosphate and electrolyte reservoir contributing to the production of ATP, delaying fatigue, increasing strength, and magnifying endurance. Not only do the ingredients in **C.G.P.** prolong physical stamina, but they also improve nutrient utilization and muscle recovery making it a critical supplement in any athlete's workout.*

CAUTION: Do not exceed recommended dose. Not intended for use by persons under the age of 18, those with a medical condition, or those with a history of kidney disease. Do not use if pregnant or lactating. If you are under the care of a physician, please consult your physician before using this product. Do not use if tamper resistant seal is broken. **KEEP OUT OF REACH OF CHILDREN. STAY IN A COOL, DRY PLACE AND AVOID EXCESSIVE HEAT.**

CALIFORNIA RESIDENTS ONLY:

WARNING: Consuming this product may expose you to chemicals including lead, which are known to the State of California to cause birth defects or other reproductive harm.

D.C.U.

Creatine Glycerol Phosphate

Muscle Torque Energy

physician formulated

Watermelon

- Superior to Creatine Monohydrate
- Triggers Harder Muscle Contractions*
- Amplifies Muscular Pumps and Enhances Vascularity*
- Increases ATP Production & Prolongs Endurance*
- No Bloating, No Cramping, No Loading, No Sugar*

400 GRAMS

DIETARY SUPPLEMENT

SUPPLEMENT FACTS

Serving size: 1 scoop (10 g)

Servings per container: 40

	Amount Per Serving	% DV
Creatine-Glycerol-Phosphate Blend:	10 g	100%
Containing: C.G.P. (Creatine + Glycerol + Phosphate),		
Potassium Gluconate, Magnesium Gluconate, Calcium		
Glycerol Phosphate, Sodium Chloride, Alpha Lipoid Acid		

*Only values are not established

Other Ingredients: Natural and Artificial Flavors, Sucralose, Acesulfame Potassium, Citric Acid, FD&C Red 40, Red 40 Alum Lake, Silica, Stabilizer, Cross Link Protein Complex.

DIRECTIONS FOR USE:

Suggested Use on Training Days: As a dietary supplement, take 1 scoop with 8-16oz of cold water or juice 30-40 minutes prior to training.
Suggested Use on Non-Training Days: As a dietary supplement, take 1 scoop with 8-16oz of cold water or juice.

NOTE: For added physical endurance, muscular pumps, and increased strength, add 1 serving of C.G.P. to any pre-workout supplement or other Metabolic Nutrition products to further enhance desired results.*
