

MRM's Conjugated Linoleic Acid (CLA) contains 1000mg of active CLA per softgel. CLA is a naturally occurring beneficial fatty acid in meat and dairy products, but it's difficult to get an effective amount of active CLA isomers through diet alone. Since its discovery in 1978, CLA's health benefits have been well documented. Make CLA part of your healthy lifestyle of regular exercise and a balanced diet.

- **Derived from Safflower Seed Oil**
- **Contains Active CLA Isomers**
