

TARGETED SOLUTIONS

The gut is lined with a single layer of intestinal cells that are connected by tight junctions. The role of tight junctions is to create an intestinal barrier to support gastrointestinal health and to permit nutrients to enter the bloodstream for overall health.[†]

Gut Soother™ supports the integrity of the cellular lining of the intestinal tract.[†] While helping to support your natural gut flora, each dose helps to:

- Soothe your digestive tract[†]
- Support intestinal health[†]
- Reduce occasional bloating, belching, and nausea[†]
- Provide prebiotic fiber to promote the growth of beneficial gut flora[†]

UNCONDITIONALLY GUARANTEED for purity and labeled potency. Store bottle with cap tightly closed in a cool, dry place.
