**SAMBUCOL® is the Actual  
Extract Used in Clinical Studies**

Developed by world  
renowned virologist  
Madeleine Mumcuoglu,  
Ph.D., SAMBUCOL®  
is the unique black

elderberry (*Sambucus nigra* L.)  
extract actually used in published  
clinical studies. No other elderberry  
brand can make the same claim.  
While working on her doctoral thesis,  
Dr. Mumcuoglu developed a pro-  
prietary method for black elderberry  
extraction.

SAMBUCOL® is a natural, upper  
respiratory health product trusted by  
millions of people with positive  
results being reported worldwide.
