** These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

How do you use this product?
It is recommended to swallow or chew 3 caplets with the first bite of dairy food. You can adjust this number up or down to achieve the best results. This product can be used every day, or with every meal. Before using, read all label directions.

Is this product for you?
Yes, if you are one of the many people who experience gas cramps, bloating and diarrhea when you eat dairy foods. These discomforts may be a result of the lactase (milk sugar) found in all dairy foods - like milk, ice cream and cheese. Now you can enjoy dairy foods again, every day, with the natural lactase enzyme in this product.

What is this product?
This product makes dairy foods more digestible. ** This product simply and naturally provides enzyme that helps digest milk sugar.
