

Our Extra Strength Probiotic 25 Billion, provides a high potency dose of sixteen beneficial microbial strains to support intestinal and immune health. ** Research shows that the MICROBAC™ live transport system increases the stability and delivery of our probiotics 5-fold, resulting in 25 billion cells providing the colonization and activity of 125 billion cells. **

Lactobacillus and Bifidobacterium strains are used to support both small and large intestinal health. ** These are further enhanced with the addition of postbiotics, beneficial probiotic metabolites, the result of the controlled fermentation of good lactic acid bacteria and the proven prebiotic inulin.
