

TRI-PEP is ideal for all individuals who are looking to increase physical activity and improve exercise performance, while reducing fatigue, accelerating recovery and preserving lean muscle.¹

Dedicated to manufacturing physician formulated nutritional supplements, backed by scientific research and formulated by a medical doctor, Metabolic Nutrition is the first to develop and introduce **TRI-PEP**, the only designer "peptide-bonded" BCAA in the marketplace.

While BCAA's [Leucine, Isoleucine, and Valine] are essential, regular free-form BCAA's are missing critical co-factors to make BCAA metabolism effective. **TRI-PEP** "peptide-bonded" BCAA contains the correct ratio of these critical metabolic co-factors in its unique chemical structure to provide greater absorption & bioavailability...thus, increasing blood/plasma amino concentrations, which result in greater muscle BCAA saturation. Once absorbed in the blood-stream, **TRI-PEP** "peptide-bonded" BCAA elevates muscle glycogen levels and inhibit lactic acid buildup, allowing for significantly greater endurance while preventing lean muscle tissue breakdown. **TRI-PEP** additionally supports improved protein synthesis, nitric oxide production, growth hormone levels and IGF-1 release...to preserve and enhance lean muscle.¹

TRI-PEP also differs from regular and ionized BCAA's which have a reputation of mixing poorly and taste-chemical aftertaste. **TRI-PEP** "peptide-bonded" BCAA undergoes-HYDROLYSISTM process...mixes easily and provides a great flavor profile when mixed in water or your favorite beverage.

TRI-PEP "peptide-bonded" BCAA provides superior physical stamina, endurance, and muscle recovery...all in an easy mixing & great tasting BCAA, that makes it a critical supplement in any athlete's workout.¹

CAUTION: Do not exceed recommended dose. Not intended for use by persons under the age of 18, those with a medical condition, or those with a history of kidney disease. Do not use Tri-Pep if you are under the care of a physician; please consult your physician before using this product. Do not use Tri-Pep if resistant seal is broken. **KEEP OUT OF REACH OF CHILDREN. STORE IN A COOL, DRY PLACE AND AVOID EXCESSIVE HEAT.**

CALIFORNIA RESIDENTS ONLY:

WARNING: Consuming this product may expose you to chemicals including lead, which are known to the State of California to cause birth defects or other reproductive harm.

TRI-PEP[®]

Designer Tripeptide BCAA

physician formulated

- First Peptide-Bonded BCAA
- Superior to Free Form BCAA's
- Improves Exercise Performance¹
- Accelerates Intra & Post Workout Recovery¹
- Preserves "Lean" Muscle Mass¹
- Mixes Instantly & Tastes Great

400 GRAMS
DIETARY SUPPLEMENT

SUPPLEMENT FACTS

Serving size: 1 scoop (10 g) Servings per container: 40

Amount Per Serving % DV

Tri-Pep BCAA (2:1:1 Ratio)
(Lysyl Glycyl L-Leucine, Glycyl Glycyl L-Isoleucine, Glycyl Glycyl L-Valine) 10 g 1

¹ Daily values are not established.

Other Ingredients: Natural and Artificial Flavors, Sucralose, Aspartame Potassium, Citric Acid, FD&C Blue #1, Blue #1, Blue #2, Silica, Gelatin, Green Leaf Protein Extract.

DIRECTIONS FOR USE:

- As part of a Weightlifting regimen, stir 1 to 3 scoops into 12 to 20-oz of water and consume before, during and after your workout.
- As part of a Functional Fitness training regimen, stir 1 scoop into 12 oz of water and consume during workout and repeat dosage immediately after training. Depending on intensity and duration of workout, you may consume up to 3 scoops w/ 20-oz of water during extended competition.
- As part of an Endurance training regimen, stir 2 scoops into 24 oz of water and sip throughout entire workout.
- As part of a weight loss regimen to preserve "lean" muscle mass, stir 1 scoop into 12 oz of water and drink immediately before your first meal of the day. For strict dieting, add one dosage at night before bedtime.¹

On Non-Training Days, to further speed recovery and preserve muscle mass, take 1 scoop with 12 oz of water in the AM and PM. Additionally for added physical endurance, muscular pumps, and increased strength, add 1 serving of TRI-PEP BCAA to GOR, TAG or to any pre-workout supplement or other Metabolic Nutrition product to further enhance desired results.¹
