

Since 1972

Polyphenols are among the most powerful antioxidants found in nature. Antioxidants help to neutralize "free radicals," which are molecules that cause cell damage. Polyphenols readily cross the blood-brain barrier to help protect vital brain and nerve tissue from oxidative damage. Use this product when high levels of polyphenols are desired.

Nature's Sunshine also offers Grapine® with Protectors that provides a lower level of polyphenols (20 mg per tablet) plus vitamin C in a base of cruciferous vegetables.

Recommendation: Take 2 tablets with a meal once or twice daily.

120 lb. person = 120 mg = 2 Grapine tablets

This bottle was sealed for your protection. Do not use if inner seal is missing or damaged. Nature's Sunshine uses natural source materials in its products that are subject to color variation. Product of U.S.A.
