DEODORIZED GARLIC EXTRACT

DEODORIZED NATURAL GARLIC
HIGH LEVELS OF ALLICIN & ALLIIN

DIETARY SUPPLEMENT

360 Easy-to-Swallow Capsules

Andrew Lessman's DEODORIZED GARLIC EXTRACT is the most recent evolution of our mild, deodorized extract of Garlic. This formula concentrates all the natural goodness of fresh Garlic without the unpleasant aftertaste, stomach upset or odor. It provides highly standardized levels of Garlic's most important active sulfur-based compounds: Allicin, Alliin, Thiosulfinates and Gamma-glutamylcysteines. Garlic's most beneficial compounds are also its most potentially irritating and unpleasant; however, unlike typical Garlic products, we preserve the full activity of Garlic while also ensuring a mild and gentle formula. Garlic has been a popular spice and traditional remedy for over 5,000 years and today, its health benefits have been confirmed by extensive clinical study. Garlic contains potent anti-oxidants and protective compounds while also possessing a well-established role in promoting heart and cardiovascular health. Despite the extensive benefits of regular Garlic consumption, most Americans avoid its frequent use due to embarrassing odor and unpleasant digestive effects. Our **Deodorized Garlic Extract** delivers all the goodness of Garlic without its unpleasant odor or digestive issues.
