

Since 1972

Glandular, Circulatory, and Nervous System Support

Nature's Sunshine **Super GLA** contains the three richest sources of Gamma Linolenic Acid (GLA) available. GLA is a precursor to prostaglandins in the body and thus has an important biological function. Women in particular may find taking **Super GLA** beneficial at certain times of the month to support mild mood changes, breast tenderness, cramps, and swelling associated with the menstrual cycle.*
