

PotentSea®

Product of USA 

In Springtime, the Gulf Stream upwells deep water nutrients and infuses our North Atlantic red, brown and green sea vegetables with rich amounts of bio-available ocean nutrition. Organic certifiers accompany us as we gently hand harvest and sun-dry the sea plants. Free from contaminants, **PotentSea® Sea Vegetables** are a great way to obtain a variety of trace minerals needed for longevity,* wellness* and a healthy thyroid function.* A healthy thyroid leads to better hormone balance,* healthy weight,* better hair,* skin and nails,* blood health* and mental clarity* while boosting immunity.* Our product provides much more nutrition than basic sea kelp supplements.
