

Our **Metabolic Tea** is a fusion of 7 different teas ethically sourced from around the world. Using only whole leaf powders and water extracts ensures their antioxidants remain bioactive. These teas have been used for centuries to support cardiovascular and immune health while providing a natural vitality.**

Alluvia™ Purple Tea, only from the mountains of Kenya, contains a unique polyphenol called GHG™, which has been shown to support weight loss and improve body composition.** Today we know the various polyphenols, catechins and caffeine in teas are what provide their energy and metabolism boosting properties.**

- Provides quick and sustained energy**
- Supports fat metabolism and cardiovascular health**
- Promotes mental focus and clarity**
