

Directions: Take one capsule 1-2 times daily or as directed by your healthcare practitioner.

B-Replete™ is an advanced B-complex providing the entire spectrum of B-vitamins and other complementary nutrients to support healthy homocysteine metabolism, adrenal, energy and neurological function as well as healthy stress response.*

B-Replete™ provides activated forms of vitamins B-2, B-6 and B-12, with the addition of benfotiamine, a fat soluble and physiologically active form of thiamin. The 5-MTHF in this formula, Quatrefolic®, is the most biologically active form of folate, allowing rapid uptake into the bloodstream.* The 5-MTHF in this formula is also known as the "L" form of 5-MTHF since it is the reduced form of folate. The addition of PABA, vitamin C and therapeutic doses of B-12 and B-6 make this a powerful and comprehensive activated B-complex that stands out above the rest.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

CAUTION: Keep out of reach of children.

STORAGE: Keep tightly closed in a cool, dry place.

CONTAINS NO: Wheat, gluten, yeast, soy, animal or dairy products, artificial colors, sweeteners or preservatives.

This Formula Meets or Exceeds cGMP Quality Standards.
