

Directions: Take two capsules 1-2 times daily or as directed by your healthcare practitioner.

Corti-B Plex™ supplies significant amounts of the water-soluble B vitamins, pantothenic acid and Vitamin B-6, to support many physiological functions associated with adrenal hormone production and regulation.* This formula also works to enhance Coenzyme A production and the body's production of energy.* The 5-MTHF in this formula, Quatrefolic®, is the most biologically active form of folate, allowing rapid uptake into the bloodstream.* The 5-MTHF in this formula is also known as the "L" form of 5-MTHF since it is the reduced form of folate.

A full spectrum of bioflavonoids have been added for antioxidant protection and the addition of L-Carnitine in the highly bioactive form, Acetyl L-Carnitine, greatly enhances the activation of the pantothenic acid kinase – the first, and most important, enzyme involved in the metabolic conversion of pantothenic acid to Coenzyme A.*

***These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.**

Caution: Keep out of reach of children.

Storage: Keep tightly closed in a cool, dry place.

This Formula Meets or Exceeds cGMP Quality Standards.
