DIRECTIONS: Take two capsules twice daily or as directed by your healthcare practitioner.

Dual-Tox DPO™ is designed to promote balanced activity between Phase I and Phase II of the body's detoxification processes. It has been formulated to contain select ingredients to support healthy detoxification and enhance the activities of hepatic detoxification enzymes. The term Dual Phase Optimizers (DPO) refers to those nutrients that have the ability to simultaneously influence and "optimize" the activity of certain Phase I enzymes as well as Phase II enzymes. By balancing and promoting these hepatoprotective properties these substances can favorably influence toxin metabolism and elimination.*

CAUTION: Keep out of reach of children. STORAGE: Keep tightly closed in a cool, dry place.

CONTAINS NO: Wheat, gluten, corn protein, yeast, soy, animal products, artificial colors, sweeteners or preservatives
