

RELACORE[®] EXTRA

Research has shown there's a link between stress, tension, and excess belly fat. That's right... high levels of stress can cause pound after pound of excess body fat to accumulate around your waist and tummy.

But now there's Relacore[®] — the breakthrough, all-natural, anti-anxiety, stress-reducing, mood-elevating pill that, in conjunction with any sensible diet and exercise program, helps reduce stress-related belly fat.* You're going to love it!

Relacore[®] — The Natural "Feel Good Pill" — Might Be The Perfect Answer To "Belly Fat"

"Relacore is a non-sedating mood enhancer that is specifically formulated to help minimize the negative aspects of stress,"* says Dr. Amy Heaton, PhD, Director of Women's Health and Nutrition for The Carter-Reed Company."

It all begins when you take the easy-to-swallow Relacore capsules. You'll soon be able to tell a difference in your overall stress level.* And if you're susceptible to stress-related belly fat retention and you use Relacore in conjunction with proper diet and exercise, you'll soon begin to see a visible reduction in your belly fat.* Relacore is the best way to control the accumulation of stress-related belly fat because the formula nips the problem of stress in the bud, so to speak.*

The Belly Fat Connection

Relacore is the most significant advancement in belly fat control in more than a decade.* Relacore's natural, stress-reducing, mood-elevating formula can help alter the underlying stress-related causes of excess belly fat... leaving you happier, full of energy and with that flat, youthful tummy you thought you'd never see again.* You're going to love what Relacore can do for you!
