WARNING: This product is only intended for use by healthy adults over 18 years of age. Do not take this product with alcohol. Do not take this product with any product containing caffeine or other ingredients that have a known stimulant effect. Consult your physician before using this product if you are taking any prescription or over the counter medications or supplements. Do not use this product if you are pregnant, expect to become pregnant or are nursing. Do not use this product if you are at risk or are being treated for any medical condition including, but not limited to: high or low blood pressure; cardiac arrhythmia; stroke; heart, liver, kidney or thyroid disease; seizure disorder; psychiatric disease; diabetes; difficulty urinating due to prostate enlargement or if you are taking a MAO inhibitor. Discontinue use and consult your health care professional if you experience any adverse reaction to this product. Do not exceed recommended serving size or suggested use. **KEEP OUT OF REACH OF CHILDREN.**

**DEMAND A CLINICALLY PROVEN
PRE-WORKOUT FORMULA.**

MusclePharm® Assault™ is the most researched pre-workout out there because we are a company of athletes. We want to feed our bodies the best and pass our expertise on to other athletes. Multiple studies prove that 1 serving helps increase strength, aerobic and anaerobic performance. Assault™ meets Informed Choice® product standards and is safe for kidney and liver function, even in chronic use cases.*

SUPERIOR INGREDIENTS, SUPER RESULTS.

- **CON-CRET®:** Assault™ is the only pre-workout formula to use this clinically-proven and patented version of creatine.*
- **ASTRAGIN®:** Patented ginseng extract, lowers blood glucose levels, increases creatine/arginine absorption and ATP production.*
- **CINNULIN®:** Heightens absorption of creatine*, arginine*, vitamins and other ingredients launch directly into muscles. (*Both workhorse substances also burn body fat while adding muscle, for a leaner, fuller physique.)*
- **BCAAS:** "Concentrated" formulas hit hard, then leave you hanging. Our patent-pending ratio promotes stronger recovery and lean muscle mass.*
- **NO 1,3-DIMETHYLAMINE:** Forget that quick high, crashes always follow. You need nutrients, NOT some stimulant like 1,3-Dim.*

**STAY FOCUSED AND BLASTING FROM THE START TO
THE VERY LAST SET. PREPARE TO ASSAULT™ THE GYM.**
