All men are affected by Andropause, the male version of Menopause as they age. Amidren is the first formula designed specifically for men to help combat some of the symptoms of Andropause.†*

Breakthrough research shows that the select ingredients used in Amidren may help combat some of the symptoms of Andropause such as decreased sex drive, thinning hair, depression, increased body fat, low energy, loss of lean muscle and a decrease in bone mass.†*

Formulated by specialists in the field of anti-aging and natural hormone modulation, Amidren has been carefully formulated by physicians to address Andropause using an advanced 5 Stage Hormone Modulation approach to help you "Live at Your Peak".†*

Directions:

Take two tablets
once daily with
or without meals.
