

IODINE

Iodine is an essential component of the thyroid hormones Triiodothyronine T-3 and Thyroxine T-4 and is crucial for thyroid function. The thyroid hormones are vital to the development of organs and the epidermal layers of the brain. Iodine also regulates the body's metabolism, the body's thermostat and its blood vessels.

Mixing Instructions: Mix with 8 to 10 ounces of juice or water.

In processing, FDA & GMP guidelines are observed and strictly followed.

Disclaimer: This product is not intended to diagnose, treat, prevent or cure any disease.
