

Directions: Take eight capsules daily or as directed by your healthcare practitioner.

Gluten Sensitivity GI Restore™ is 100% pure bovine colostrum and is collected within the first 16 hours after birthing. It is a natural wholefood that provides a rich source of IgG and PRPs (Proline-Rich Polypeptides). It also supplies protein, immune factors, growth factors, vitamins and minerals to ensure health and vitality naturally. Numerous scientific studies have shown that colostrum supports the human immune and cytokine systems. Bovine colostrum is actually 40 times richer in immune factors than human colostrum and is biologically transferable to humans.*

A key feature of **Gluten Sensitivity GI Restore™** is that it is specifically processed to retain high amounts of PRPs. PRPs are tiny information carrying proteins with amazing adaptability. In times of intense physical stress, they enhance immune activity by promoting the production of cytokines.* In the opposite situation, when a healthy immune system reacts to environmental factors through cytokine production, PRPs send signals via specific cell receptor sites to decrease the production of cytokines in order to balance the immune system.* Many colostrum products are produced in a way that they lose these very important PRPs. **GI Restore™** is low heat processed for maximum biological activity and is hormone, antibiotic and rBST free.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

CAUTION: Do not use if you are pregnant or if you have received an organ transplant.

STORAGE: Keep tightly closed in a cool, dry place.
