

## ZINC

Zinc is an essential trace mineral nutrient required for a wide array of metabolic processes. The body contains about 2.2 g of zinc, more than any trace mineral except iron. Over 100 different enzymes (biological catalysts) require Zinc. Zinc supports normal cell division and growth, the function of cell membranes, the immune system, bone calcification and the development and function of male reproductive organs.

**Mixing Instructions:** Mix with 8 to 10 ounces of juice or water.

In processing, FDA & GMP guidelines are observed and strictly followed.

**Disclaimer:** This product is not intended to diagnose, treat, prevent or cure any disease.
