

Directions: Chew or hold one lozenge in mouth daily until dissolved or as directed by your healthcare practitioner.

Methyl B-12 Rx is a great tasting, sublingual lozenge providing 5 mg (5,000 mcg) of Vitamin B-12 in the active, methylcobalamin form. This active methyl form has metabolic advantages over other forms, including more cobalamin deposited in tissue than with the cyanocobalamin form.* Vitamin B-12 is a water-soluble vitamin necessary for the maintenance of a healthy nervous system, enhanced cognition, and for the metabolic utilization of fats and proteins.* It is also essential for the synthesis of DNA during cell division and therefore is especially important for rapidly multiplying cells, such as blood cells.* In addition, it may support healthy homocysteine levels, cardiovascular health and neurological health.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

CAUTION: Keep out of reach of children.

STORAGE: Keep tightly closed in a cool, dry place.

CONTAINS NO: Wheat, gluten, corn protein, yeast, soy, animal or dairy products, artificial colors or preservatives.
