DIETARY SUPPLEMENT

NET. WT. 1.50 oz (42.5 g)

INSTANTIZED POWDER

DIRECTIONS: As a dietary supplement, add one scoop (42.5 g) to 8 fl oz of water or milk (dairy, almond, oat, rice or soy) and mix or shake until smooth. For best results, liquid should be very cold. Mixes instantly without the use of a blender. For EXTREME results, take approximately 30 minutes after workout.

EXTREME EDGE[®] POST WORKOUT is designed to provide your body with the nutrients it needs to maximize muscle growth and development, as well as facilitate rapid muscle repair while lessening recovery time after intense workouts. This anti-catabolic formula prepares your muscles for optimal growth while at the same time inhibiting muscle breakdown, reducing the onset of muscle soreness, replenishing lost electrolytes, decreasing recovery time, and boosting the body's immune system to counteract transient immune suppression, which is often a result of strenuous exercise. Use it once, and you will never train without it again! ♦

KEY FEATURES

- ✓ Provides 28 g of microfiltered whey protein for optimal recovery and muscle growth
- ✓ Whey protein derived from free-roaming, grass-fed cows not treated with hormones (rBGH) or antibiotics†
- ✓ No creatine
- ✓ Free of artificially-derived colors, flavors, and sweeteners
- ✓ 99% Lactose-Free

NSF[®]Certified for Sport[™]

Tested • Certified • Safer[™] with NSF Certified for Sport[™]
Product tested for 200+ banned substances
Product checked against sports prohibitive lists
(NFL, MLB). More info at www.nsf.org

† The Federal Government has determined there is no significant compositional difference in the milk or milk by products from rBST or rBGH treated and untreated cows.
