

Suggested usage: 1-2 softgels 2 times per day or as directed by a health professional. Supports the body's natural inflammatory response.*

Cautions: As with any supplement, consult your health professional before use if you are pregnant, breastfeeding, or trying to conceive, or if you are taking medication, have a medical condition, or anticipate a surgery. Keep out of the reach of children. Curcumin is the yellow pigment in turmeric with many valued health benefits, but it is difficult for the body to absorb. Theracurmin is a natural curcumin preparation that utilizes advanced techniques to reduce curcumin's particle size, dramatically increasing its solubility and bioavailability. Detailed absorption studies have proven that Theracurmin is the best-absorbed form of curcumin on the market.*

Manufactured by Natural Factors to ensure safety and quality in accordance with Good Manufacturing Practices (GMP) of the FDA and Health Canada.

Contains no artificial colors, preservatives, or sweeteners: no dairy, starch, sugar, wheat, gluten, yeast, soy, egg, shellfish, salt, tree nuts, or GMOs. Sealed for your protection. Do not use if seal is broken. For freshness, store in a cool, dry place.

* This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

*Scientific research revealed that Theracurmin was more bioavailable on a milligram-to-milligram basis than other leading branded and regular forms of curcumin.

As measured by SPNS 2014 data.

1* ABSORBED form of Curcumin*

When consumed orally, the absorption (bioavailability) of regular curcumin is quite poor. The reason is that curcumin is relatively insoluble in water and is rapidly transformed and excreted from the body. Your absorption has been a matter of not only of clinical studies have shown regular curcumin to be effective, even when extremely large doses were given. But CurcuminRich contains Theracurmin — a natural preparation that utilizes advanced techniques to reduce the particle size of curcumin with a vegetable grain (grain) to dramatically increase its solubility and bioavailability. Detailed absorption studies have proven that Theracurmin is the best-absorbed form of curcumin on the market. This improved absorption with Theracurmin is extremely important in getting the health benefits curcumin provides.

A major breakthrough in curcumin absorption!

It's not how much you take, it's how much you absorb!

Theracurmin represents a major scientific breakthrough and is the #1 absorbed form of curcumin. Finally the powerful health benefits of curcumin can be fully realized!

Whole Body Curcuminizer combines Theracurmin and omega-3 EPA & DHA with supercharged supplement extracts — boswellia, antioxidants, and Ultra Fruit Polyphenol Complex to:

- Support joint's health, comfort, and function*
- Support the body's natural inflammatory response*
- Promote heart and vascular health*
- Exert powerful antioxidant activity*

*Scientific research revealed that Theracurmin was more bioavailable on a milligram-to-milligram basis than other leading branded and regular forms of curcumin.

*As measured by SPNS 2014 data.
*Bioavailability comparison of curcumin from two published studies showing blood levels of curcumin over a 12-hour period normalized at the same dosage level.
