

ELECTROLYTE Mineral Water

Ultimate Electrolytes is a unique blend of body's most used electrolyte minerals in an ultimate strength. These electrolyte minerals will enter the blood stream almost immediately and go to work. Electrolyte minerals are lost very rapidly when the body is put through a strenuous workout or because of excessive heat. Ultimate Electrolytes deliver a highly concentrated amount of sodium, potassium, magnesium, and calcium in the right proportions for the body to use.

Ultimate Electrolytes should be diluted down with water, or can be added to another electrolyte drink to enhance the electrolyte potential of both drinks.

Mixing Instructions: Mix with 8 to 10 ounces of juice or water.

In processing, FDA & GMP guidelines are observed and strictly followed.

Disclaimer: This product is not intended to diagnose, treat, prevent or cure any disease.
