

This formulation is a unique natural treatment for immediate and long term relief from Bloating, Indigestion, Acid Reflux, Heartburn, IBS and GERD without reducing stomach acid.

In many cases this natural treatment can help reduce the need for drugs like Nexium®, Prevacid®, Prilosec®, Tagamet®, Rolaids® or Tums® without the side effects associated with these and other acid reducing agents. You must wean off these medications slowly to avoid rebound heartburn or reflux. Even missing one day of your PPI may precipitously cause severe rebound. Start taking Betten-Aid for a few days before you begin cutting back on your pharmaceuticals. After a few days take the pharmaceuticals every other day, then every third day, etc. In addition, take 2 Betten-Aid tablets 3 times a day with meals. You may need to take as many as 10 or more tablets daily. There are no side effects so don't hesitate to take additional tablets. Chew slowly to get the maximum benefits.

This product is vegetarian and CONTAINS NO: corn, dairy, egg, gluten, wheat, yeast, rice, sodium, soy, added sugars, starches, synthetic dyes, artificial flavorings or preservatives.

- The color of this product may vary due to color variation of the natural ingredient
