

Omega3 fatty acids are important to health, especially for the heart, brain and cell membranes of the body. EPA and DHA are precursors to the PGE3 series of prostaglandins, which are substances important to body regulation. The Natural Fish Oil Concentrate used in this softgel is manufactured under strict quality control standards. It is tested to be free of potentially harmful levels of contaminants (i.e. PCB's, mercury, heavy metals, dioxins, and other contaminants).

Omega3 has a special enteric-coated softgel which protects the contents of the capsule from stomach acid by preventing gastric juices from dissolving the softgel in the stomach and releases the fish oil in the alkaline environment beyond the stomach. This allows you to enjoy the benefits without that fish oil taste.

The product CONTAINS NO: citrus, corn, egg, gluten, milk, rice, sodium, soy, wheat, yeast, added sugars, starches, synthetic dyes, artificial flavorings or preservatives.

- Color of this product may vary due to color variation of the natural ingredient
- Store in a cool, dry place
