

RAW ORGANIC MACA POWDER

Maca root was used in ancient Peru as a source of nourishment for thousands of years, and it continues to be one of the most appreciated superfoods today. It is often regarded as a highly adaptogenic food, thought to help the body adapt to stress and support stamina. Our powder is the raw and natural form of this special root – gently dried and ground to preserve its vitality and nutritional structure. Its earthy taste is slightly nutty with a hint of butterscotch.†
