

Directions: Take three capsules with breakfast and three capsules with lunch, or as directed by your healthcare practitioner.

Osteo Vegan™ Rx is an advanced, professional grade, plant-sourced calcium and bone building formula exclusively available through healthcare professionals.* In two human clinical studies, patients who supplemented with *Algae calcareas*, the main component of Osteo Vegan™ Rx, along with proper diet and exercise, increased bone mineral density up to 4.33% in just one year.* The highly specialized plant calcium in Osteo Vegan™ Rx is micronized to ensure optimal absorption by delivering the perfect particle size.* It is a certified organic wholefood with over 70 naturally occurring trace minerals and phyto-nutrients. Since the calcium in this formula is an all-natural, GRAS certified, plant-derived wholefood, it does not have the potential negative effects on arterial calcification that non-food based calcium supplements have.* Additionally, NuMedica® has selected a proprietary, clinically effective plant-derived form of D3, instead of the most common source, lanolin (sheep's wool).* D3 is essential for bone health and intestinal calcium absorption.* Osteo Vegan™ Rx includes an all trans-natural, patented form of K2 as MK7, which has been shown in human clinical studies to increase osteocalcin (calcium-binding protein) levels, enhancing the body's ability to utilize calcium in the bloodstream.* Patented Albion® magnesium is included for its superior absorption compared to other forms such as magnesium carbonate.* This formula contains a broad spectrum of other bone-supporting nutrients and utilizes a proprietary blend of AstraGin™ and BioPerine® the latest in advanced absorption technology, for maximum effectiveness.* For best results, use with NuMedica's OsteoV SC, an essential bone support formula.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

This Formula Meets or Exceeds cGMP Quality Standards.
