

PROTEOSYNTHETIC POWER

Multiple Mechanisms of Action

Myo-AUGMENTATION

- Multiple mechanisms of anabolic behavior
- Supports proteosynthetic power in muscle & non-muscle tissues
- The ideal supplement to training and diet for outrageous myo-augmentation
- Designed to be additively delicious by in-house flavor scientists

Beaumont formulators sourced BIG BLEND™'s ingredients from around the world, country by country, city by city in order to ensure that they could formulate with a long list of features and benefits including but not limited to rapid and sustained increases in muscle essential (leu) and nonessential amino acid (NEAA) levels, nitrogen balance, nitric oxide production, protein synthesis in muscle and non-muscle tissues, insulin-like growth-factor-1 (IGF-1) production, muscle hypertrophy, muscle mass, muscle strength and muscle thickness. Furthermore, to make sure that BIG BLEND™ makes protein shakes that rapidly quench your appetite every time you drink one, Beaumont developed all of its flavors in-house.

If you're looking to get bigger, with **Big BLEND™**, then look no further than the inside of this bottle. Each serving of new **Big BLEND™** contains a myo-augmenting blend of refined proteins and amino acid derivatives from a mind-blowing 22 different sources, all fortified by a low-calorie, low-glycemic infrastructure of brown rice bran, proteolytic enzymes and carbohydrate. With each ingredient, you'll have several potential mechanisms of action. **Big BLEND™** is capable of inducing a diverse array of anabolic behaviors across a vast inside your body. The muscle-building possibilities are virtually endless. Importantly, **Big BLEND™** also improves the body's ability to burn fat, so the body—muscle as well as non-muscle tissues, and it tastes as big as it feels!

MIAMI, FL—Behavioral Nutrition's in-house team of protein supplement formulators took themselves into their own GMP manufacturing lab. Their mission is to develop the "best and the biggest," a protein supplement so massive in its content of myo-augmenting proteins and amino acid derivatives that it will produce anabolic behaviors quantitatively and qualitatively unlike anything else on the market for years to come. Two months and more than a dozen pilot batches later, they emerge from the lab with new BIG BLEND™.

- Acetyl, AKG, Ester & Nitrate Amino Acid Derivatives
- Low-Glycemic Carbohydrate
- Protein Hydrolysates
- Brown Rice Bran

SCOOP: Each gram of BIG BLEND™ contains ingredients never before found in a single

- ✓ **AMINO ACID DERIVATIVES:** Amino acid derivatives like Nitrate BCAA's N-Acetyl L-Phenylalanine, L-Alanine Ethyl Ester HCl, glutamine Ethyl Ester HCl, L-Leucine Alpha-Ketoglutarate and many more amino pharmaceutical compounds are used as ingredients in various sports supplements. These ingredients are important of interest to advanced bodybuilding athletes. These ingredients are possible to obtain from food and are not found in many protein supplements.
- ✓ **DIGESTIVE STIMULANTS:** Low-calorie, low-glycemic brown rice bran carbohydrates and enzymes stimulate poor digestive tract and help improve the metabolic efficiency of BLENDS main proteins and amino acids. BLENDS BLENDS over control Phosphor oxidized and increase to ease digestion and provide may for more rapid absorption and muscle-building utilization.

Other Ingredients: May contain caramel, sucralose, natural & nature's equivalent flavor.

Contains: Milk.

RECOMMENDED DOSAGE: Mix 1 serving of BIG BLEND™ with cold water to the

RECOMMENDED DOSAGE: Mix 1 serving of BIG BLEND™ with cold water to the desired thickness in a shaker cup or blender. Consume immediately after your weight-lifting workout. Repeat 2 hours later. On days that you don't work out (rest days), consume 1 serving of BIG BLEND™ in the morning and 1 serving before bed.

WARNING: BIG BLEND™ is intended for use as a supplement to the diet only. Do not use for weight loss or as your only source of calories. BIG BLEND™ contains ingredients derived from milk, eggs and rice. Because it is packaged by weight rather than volume, some settling of the contents of this bottle may occur.

MULTI-SOURCE REFINED PROTEIN SHAKE WITH UNSURPASSED ANABOLIC BEHAVIOR!
