MAXelence™ – a first-of-its-kind performance beverage – provides your body energy & stamina naturally for recovery from stress, exertion & fatigue. Your muscles, including your heart, require the synergistic ingredients in MAXelence™ for performance and accelerated muscle & energy recovery. Stimulated energy (caffeine, taurine, guarana, etc.) "makes" the body "feel" energized for a while, but actually drains the cellular energy pool in the process. MAXelence™ promotes overall health and well-being by reinforcing your body chemistry with proven nutritional science, helping to produce ATP (Adenosine Triphosphate) and providing you with antioxidants, all critical vitamins, nutritive fiber & chelated minerals to generate vital energy at the cellular level. No "buzz," "jitters," or "payback" – just safe, healthy, nutrition-based performance and faster recovery, regardless of age from 9 to 90. We think health-minded consumers will appreciate having MAXelence™ as a daily part of their busy lifestyle.
