

Suggested use: Chew or dissolve 1 tablet per day in the mouth before swallowing or as directed by a health professional.

Cautions: As with any supplement, consult your health professional before use if you are pregnant, breastfeeding, or trying to conceive, or if you are taking medication, have a medical condition, or anticipate a surgery. Keep out of the reach of children. Quatrefolic® is the metabolically active and coenzymated form of folate. The body cannot make folate on its own and must obtain it from foods or dietary supplements. However, folic acid and also food folate are not biologically active and need to be converted to the metabolically active 5-MTHF. Research has shown that Quatrefolic® results in a 3.1 times higher blood folate concentration of 5-MTHF than regular folic acid. Supports immunity, cardiovascular, neurological, and cognitive health. *Helps to support normal early fetal development including the brain and spinal cord, and reduce the risk of neural tube defects when taken daily at least three months prior to becoming pregnant and during early pregnancy. *Helps to prevent folate deficiency, produce red blood cells and is a factor in the maintenance of good health.

Manufactured by Natural Factors to ensure safety and potency in accordance with Good Manufacturing Practices (GMP) of the FDA and Health Canada.

* This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Supplement Facts		
Serving Size 1 Tablet		
	Amount Per Serving	% Daily Value
Folate (from (6S)-5-methyltetrahydrofolate acid (MTHF), glucosamine salt, Quatrefolic®)	1700 mcg DFE (1000 mcg folic acid)	425%
B12 (methylcobalamin)	50 mcg	2,083%

Other ingredients: Lactose, microcrystalline cellulose, croscarmellose sodium, Farm Fresh Factors®, magnesium stearate (vegetable grade). Contains milk.

Contains no artificial colors, preservatives, or sweeteners: no starch, wheat, gluten, yeast, soy, corn, egg, fish, shellfish, salt, tree nuts, or GMOs. Suitable for vegetarians. Sealed for your protection. Do not use if seal is broken. For freshness, store in a cool, dry place.

What does coenzymated mean?

In order for B vitamins to be utilized effectively by the body, they must be converted into their metabolically active coenzyme forms. For example, the coenzyme form of folate is 5-methyltetrahydrofolate (5-MTHF). A coenzyme is a naturally occurring compound that partners with specific enzymes in order to help promote a number of beneficial metabolic reactions in the body. Without the coenzyme, the enzyme cannot promote the biochemical reaction that is responsible for our survival. This dual cooperation between coenzyme and enzyme is a process called coenzymation.

Taking B vitamins already in their coenzymated form allows the body to use them directly. Thus, the amount that is needed by the body is less in order to achieve the same benefits. BioCoenzymated takes it one step further. Using our proprietary Envirosimplex technology, we've created a unique bioenzymated process using organic, farm fresh plant extracts from whole food sources to create coenzyme form of B vitamins.

The synergy between the phytochemicals found in these plant extracts and the coenzyme B vitamins optimizes absorption.

The results? BioCoenzymated delivers the most metabolically active nutrients to your cells to utilize most effectively.

Feel the difference.
