HERBAL TEA HOW-TO

Pour boiling water over one tea bag. Steep 5-10 minutes. Sip 1 cup directly after childbirth, then 1-3 cups per day, or as recommended by your healthcare provider. For monthly discomfort sip as often as needed.

PERIODIC TEA

We women periodically power through a whole lot of blood, sweat and tears. This tea gives back on all the P days: period, postpartum and even perimenopause. It's a comforting cinnamon-delicious blend of organic herbs traditionally used for postpartum support and to help ease symptoms of PMS and premenstrual cramping.* Sip it, and then? Go forth and rest.

HEY LADIES!

Lady's Mantle (*Alchemilla vulgaris*) is traditionally known for supporting a healthy female reproductive system. Working with cinnamon, *Lady's Mantle* is traditionally used through that time of the month and after childbirth, making it a true mensch among mothering herbs.

Menstruation, in most spiritual practices, is a time when women are isolated and introspective. The world has its urgencies, but for now, take this time to be quiet and ponder your body's wisdom.
