

The Elderberry Force™ Difference

Elderberry Force™ combines multiple revered herbs to promote healthy immune function through multiple pathways.* The antioxidative constituents in Elderberry unite with those in Black Currant to provide complementary immune-supportive benefits.* Our Austrian-sourced Elderberry is optimally grown to support the body's natural immune defenses.* Black Currant extract supports healthy microbial balance and helps to maintain normal cell growth.*

"True-to-Fruit" Membrane Extraction

Membrane extraction is purely mechanical—pushing fruit through a very fine filter—so it's simple, pure and uses no solvents or evaporation. The unique process filters out sugar molecules while allowing the fruit's natural proportions of beneficial phytonutrients to be delivered. Compared to whole Elderberry and whole Black Currant, these extracts have the same profiles of rich chemistries, but are highly concentrated for your maximum benefit.
