

If you're serious about performance and results, you need the ALL-NEW MuscleTech® Performance Series!

- NO Proprietary Blends
- NO Underdosed Key Ingredients
- NO Banned Substances (WADA)
- NO Fillers
- NO Hype
- NO Exceptions

Just the Most Powerful Formulas Available

World's First Strength-Enhancing BCAA+ formula

ALL-NEW AMINO BUILD™ is a superior BCAA+ amino acid formula designed with a 2:1:1 BCAA matrix powered by a 4-gram dose of leucine shown to increase strength by over 40%. Other cutting-edge compounds were added to enhance the overall workout experience including a clinical dose of Betaine. This amino fuel tastes great, mixes easily, and can be used to aid strength and muscle endurance. AMINO BUILD™ also supplies vital electrolytes and Taurine, a powerful cell-volumizing agent, for a truly advanced BCAA-amino formula.▲

100% Free-Form 2:1:1 BCAA Matrix

The branched chain amino acids in AMINO BUILD™ are 100% free form. Free-form amino acids are singular molecules, which means they are quickly digested and absorbed by your bloodstream. The formula supplies a massive 8 grams of BCAAs in a 2:1:1 ratio, which helps fuel your skeletal muscles, preserves muscle glycogen stores and helps to reduce the amount of protein breakdown.▲

Increase Strength by over 40%

AMINO BUILD™ is precisely formulated with a 4-gram dose of L-leucine shown in a clinical study to help subjects increase their 5-rep max strength by over 40% in just 12 weeks.¹ A clinically studied 2.5-gram dose of Betaine has also been added to the formula that helped subjects significantly enhance their muscular endurance. Together, these will help you get stronger and go longer.▲,²

Enhances Endurance with First Dose

A 1-gram dose of Taurine consumed 2 hours prior to cardio training, the same amount in AMINO BUILD, is clinically shown to improve performance in endurance athletes.▲,³

- Added Cell-Volumizing Compounds**
 In addition to its key ingredients, the formula delivers 4 grams of a Cell-Volumization Muscle Complex comprised of Taurine L-glutamine, L-citrulline malate and L-alanine. Together, these compounds work to enhance cell volumization during training.▲
- Best-in-Class Taste**
 AMINO BUILD™ was flavored by experts in one of the world's top flavoring houses in order to taste better than any other amino acid powder on the market.
- Get More for Your Money**
 Unlike the competition, Performance Series products contain superior key ingredients in clinically dosed amounts that are fully disclosed so you know exactly what you are paying for.

DIRECTIONS:

Mix 1 scoop with 8 oz. of water. For full effects, mix 2 scoops with 16 oz. of water. Read the entire label before use and follow directions provided.

For Improved Energy and Endurance	Consume 2 hours before workout/activity
For Strength and Recovery	Consume during activity and post-workout

If you want to add to your overall daily BCAA intake without the additional calories from drinking multiple protein shakes, you can also add 1-2 scoops to a jug of water and drink it over time.
